

COSHH Risk Assessment

AIR FRESHENER GEL(S)

Product Code: BC115-WB

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Plastic outer case with freestanding design. Product is supplied ready to use.	Risk of spillage if the container is dropped. Spillages will prove slippery.	Trained employees should handle only single bags at any given time. Take care not to drop tubs. Ensure that the lid is secured at all times.	Transfer tubs to store immediately following delivery. Do not leave tubs in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, dry storage area. Do not store below 05C degrees or above 30C degrees. Product must be kept stored in its original container.	Minimal risk of spillage if lids are firmly in place. Lids are not child proof.	Keep in secure storage areas. Store all tubs below chest height to minimise risk of dropping. Risk of emission of Oxides of Carbon if involved in a fire – product itself is not classified as flammable. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that tubs are not split or damaged. Make regular checks to ensure that storage area is clean and dry.
USAGE			
Peel off the front cover for fragrance.	Slight risk of eye contact. Risk of skin contact.	Ensure that the tub is returned to the store when not in use. Always read the manufacturer's instructions prior to use.	PPE is not normally required. Ensure that operatives are aware of location of First Aid facilities and personnel.
DISPOSAL			
Dispose of using Local Authority Guidelines. Recycle all containers wherever facilities are available.	Small risk of skin contact.	Do not store any other material in the empty container.	No PPE required.
