

# COSHH Risk Assessment

## PROCHEM URINE NEUTRALISER (1 litre)

Product Code: BM015-1

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
<b>DELIVERY</b>			
Packaged in 10 x 1 litre polythene bottles in a cardboard carton. Delivered in single containers if required.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop containers. Ensure that the cap is secure at all times.	Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
<b>STORAGE</b>			
Containers must be stored upright in a cool, dry storage area. Product must be kept stored in its original container.	Risk of emission of carbon monoxide if involved in a fire – product itself is not flammable. Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Keep containers in secure storage areas. Avoid extremes of temperature. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that containers are not split or blown. Make regular checks to ensure that storage area is clean and tidy.
<b>USAGE</b>			
Product is ready to use. Spray product directly onto contaminated area.	Risk of eye contact. Risk of skin contact. Risk of ingestion. Risk of inhalation. Risk of spillage onto floor and into drainage system.	Handle the containers with care. Wear Personal Protective Equipment. Wipe up any splashes or spillages immediately; large spillages can be hosed away using clean water. Ensure that the container is returned to the store when not in use. Always read the manufacturer's instructions prior to use. Ensure that the work area is well ventilated at all times.	Provide employees with PPE as follows: <ul style="list-style-type: none"> <li>• Safety glasses</li> <li>• Nitrile Rubber gloves</li> </ul> Ensure that operatives are aware of location of First Aid facilities and personnel.
<b>DISPOSAL</b>			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Risk of contamination with other substances.	Wash out spent containers using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside of the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal.
