

# DEEP CLEAN PRODUCT GUIDE FOR EDUCATION

# Deep Cleaning - Controlling The Risk

Whenever and wherever cleaning is taking place, it is extremely important that all potentially harmful dirt and bacteria are prevented from travelling around the building.

One of the ways in which such bacteria can be transmitted throughout a building is via the same cleaning equipment and solutions being used in areas of different use. Therefore, in order to minimise the risk of infection, cleaning operatives must adopt effective infection control procedures.

# Personal Protective Equipment

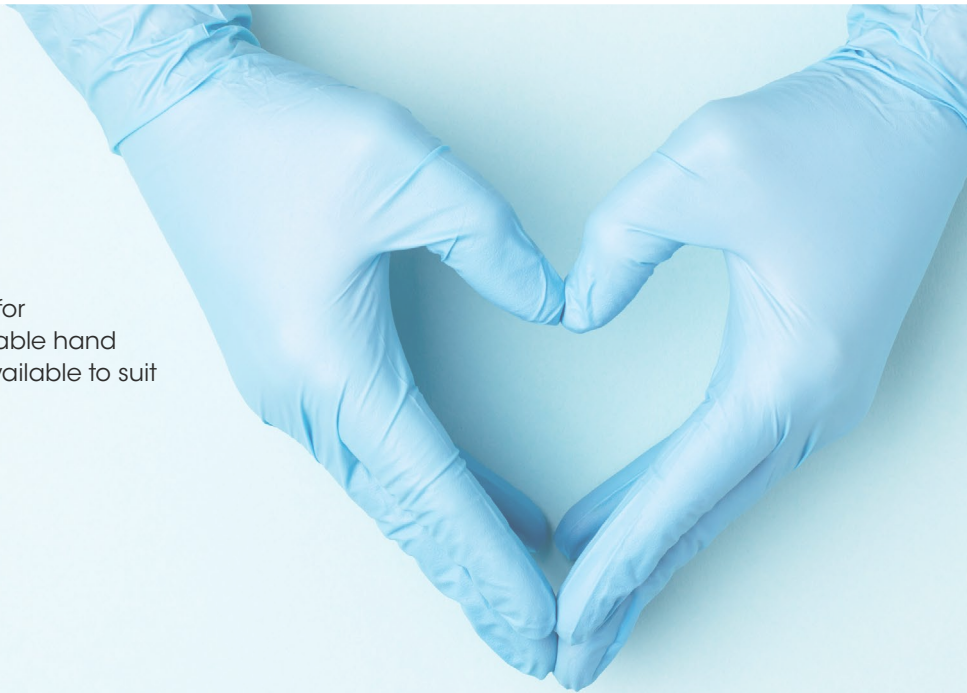

## Disposable Gloves

Our disposable gloves have been designed for procedures requiring strong, quality, dependable hand protection. Different types and grades are available to suit general use or medical classification.

Available in a variety of -

- Vinyl
- Latex
- Nitrile
- Natural or blue gloves
- Powdered or powder-free

## Face Masks

For high risk applications where there is visible contamination with body fluids, additional protection is required to cover the cleaners eyes, mouth and nose.

## Disposable Aprons

Strong polythene aprons resistant to fluid and bacteria. Available in blue or white, flat packed or on the roll.

## Shoe Covers

For additional hygiene measures, shoe covers provide a clean wrapping of protection over footwear.

## Safety Signs

Ensure maximum visibility to others when an area is being cleaned by placing safety signs around the designated area.

Health and Safety awareness training is available at - [www.jangrolms.net](http://www.jangrolms.net)

# Hand Hygiene

Good hand hygiene is the primary, most important method of preventing cross contamination and the spread of germs and bacteria.

**Kills bacteria**

**Jangro Bactericidal Hand Soap**  
Unperfumed hand wash. Kills 99.999% of bacteria. Passes EN1499, EN13727 and EN1276. Contains extra moisturiser to help prevent dry skin.

**BK170-50**      **500ml**  
**BK170-5**      **5 litre**  
**BK170-C1**      **6 x 1 litre**

**FRAGRANCE FREE**

**Jangro Antiviral Hand Soap**  
Moisturising antiviral hand wash specially formulated to be gentle and effective, leaving your hands feeling soft. Kills 99.99% of germs and is suitable for regular use. Passes BS EN 14476, BS EN 1276.

**BK175-50**      **500ml**  
**BK175-5**      **5 litre**

**FRAGRANCE FREE**

**Jangro Pearlised Hand Soap**  
Luxurious pearlised hand and body soap manufactured from high quality surfactants. Creates a creamy lather. Contains a special skin care emollient making it pleasing to use and gentle on the skin.

**BK101-50**      **500ml**  
**BK101-5**      **5 litre**

**Jangro Hand Soap Unperfumed**  
High active, quality hand soap which is mild and gentle to hands. Contains no perfumes is ideal for use in food preparation areas.

**BK104-50**      **500ml**  
**BK104-5**      **5 litre**  
**BK104-C1**      **6 x 1 litre**

**FRAGRANCE FREE**

**Jangro Enviro Luxury Hand Wash**  
Luxury hand, body wash and hair shampoo. The mild cleaning ingredients and the balanced ph will leave hands clean and gently refreshed, whilst the moisturising properties will help protect the skin against dryness.

**BF001-50**      **500ml**  
**BF001-5**      **5 litre**

**Jangro Contract Hand Soap**  
Economical hand soap with a refreshing fragrance. Mild and gentle to skin.

**BK803-50**      **500ml**  
**BK803-5**      **5 litre**

Remember **ALWAYS** wash your hands whenever:

- you have had contact with any bodily fluids
- you have used or cleaned the toilet
- you have sneezed, blown or wiped your nose
- you have covered your mouth with your hand while coughing or sneezing
- before eating, handling and preparing foods
- your hands feel or look dirty
- you have handled or cleaned up after any animals

**WASH FOR 20 SECONDS**

# Jangronauts

## Hand Washing Heroes

Introducing the Jangronauts, hand washing heroes, designed with children in mind. From schools to nurseries and restaurants to shopping centres, they bring a smile to any washroom.

**Includes free training resources for teachers**

### Jangronauts Soap Dispensing System

- Robust construction
- Easy-to-load refills
- Features skylight with an extra large window so it's easy to see when refill needs replacing
- One hand push operation
- Dispenser is lockable to optimise security
- With each refill the integrated system turns the liquid into foam

**BK038 Manual FMX™**

### GOJO Soap Cartridges

Refills for BK038 dispenser.

Packed 3 x 1250ml

**BN708-12-FMX Freshberry Foam Hand Soap**

**BN712-12-FMX Mild Antimicrobial Foam Handwash**

**BN711-12-FMX Mild Foam Hand Soap Unfragranced**

Refills for BK039 dispenser.

Packed 3 x 1200ml

**BN714-12-TFX Freshberry Foam Hand Soap**

**BN712-12-TFX Mild Antimicrobial Foam Handwash**

**BN711-12-TFX Mild Foam Hand Soap Unfragranced**

### Jangronauts Touch Free Soap Dispensing System

- There's nothing to touch - just place hands below and the product is dispensed
- Dispenser turns off automatically when opened
- LED light shows when battery charge is low
- Fully RoHS compliant UL/CE registered
- More handwashes than your average 1200ml liquid soap dispenser

**BK039 Touch Free FMX™**

# Hand Sanitising

Highly effective skin disinfectants, which evaporates from hands without leaving residue or odour - no need for water.

## Jangro Alcohol Gel Hand Rub

Alcohol based, ready-to-use, water-soluble, gel hand disinfectant, effective against bacteria, enveloped viruses and yeast. Passes EN 14476 & EN 1500. It contains a blend of 70% alcohol and glycerol emollient to maintain skin condition. The 75ml comes with a handy fastening clip. Use after routine hand washing and when soap or water is not readily available. Will evaporate from hands almost immediately without leaving residue or odour.

# Antiviral Range

Proven to kill Coronavirus

MADE IN THE UK

See page 18 for guidance on fogging.

## Jangro Antiviral Hand Soap

Moisturising antiviral hand wash specially formulated to be gentle and effective, leaving your hands feeling soft. Kills 99.99% of germs and is suitable for regular use.

- Tested to BS EN 14476 - Effective against enveloped viruses with a 1-minute contact time
- Tested to BS EN 1276 - Kills 99.99% of germs
- Mild effective formulation leaves hands feeling soft
- Free from fragrances and dyes

BK175-50 500ml  
BK175-5 5 litre

## Jangro Antiviral Disinfectant

A powerful, multi-purpose, surface disinfectant formulated to be highly effective against a wide range of bacteria and viruses, including enveloped viruses like Coronavirus. The ready to use formula is suitable for use in schools, hospitals, nursing homes and wherever high risk applications are required.

- Tested to BS EN 14476 - Effective against enveloped viruses
- Tested to BS EN 1276 & EN 13697 - Kills 99.99% of germs and viruses
- Ready to use - no need to dilute
- Non bleach and non-tainting
- Fragrance free
- Suitable for use in most fogging machines

BA063-75 750ml  
BA063-5 5 litre

## Jangro Antiviral Fogger

Jangro Antiviral Fogger quickly and effectively sanitises rooms and areas up to 100m<sup>3</sup>. Perfect for offices, cars, hotel bedrooms, public transport vehicles and other surfaces where you need to sanitise hard and soft surfaces.

- Sanitises areas up to 50m<sup>3</sup> (BG064-10)  
100m<sup>3</sup> (BG064-20)
- Works in 15 minutes, leaving an antibacterial layer on all surfaces
- Effective against 99.9% of bacteria and viruses, including Coronavirus
- Leaves areas sanitised and fresh
- Tested to BS EN 14476, BS EN1276, BS EN 1650, BS EN 16777

BG064-10 100ml  
BG064-20 200ml

# Virucidal Cleaners

Proven to kill Coronavirus

## Virucidal Cleaner

Powerful multi-purpose cleaner and sanitisers. Passes EN 14476 - Effective against enveloped viruses including Coronavirus, Influenza virus, HIV, Hepatitis B & Hepatitis C. Passes EN 1276 and EN 1650 - Kills food poisoning bacteria including E-coli. Suitable for use in all public places including care homes, schools, sports facilities, animal handling etc. It's perfect for anywhere that high risk applications are required.

- Passes EN 14476 - effective against enveloped viruses including Coronavirus, Influenza virus, Hepatitis B & Hepatitis C
- Passed EN 1276 and EN 1650 - Kills food poisoning bacteria including E-coli
- Cleans and sanitises frequently touched items such as door handles, hand rails, tables etc.
- Safe to use on all common washable surfaces
- Suitable for use in all areas that require high risk applications

# Surface Cleaning Products

## Jangro Premium Surface Sanitiser - Alcohol Based

70% IPA Alcohol spray disinfectant suitable for use on most water resistant surfaces. Certified to EN 1276, EN 13697 and EN 14476 against enveloped viruses and coronavirus. No rinse required - spray and wipe or spray and walkaway. Dries quickly and leaves no harmful sticky residue.

BA210-75 750ml

## Jangro Premium Alcohol-Based Sanitiser

Ready-to-use, alcohol-based, disinfectant cleaner for use in the food processing, catering and healthcare industries. Suitable for use on hard washable surfaces, such as stainless steel, polished metal, painted surfaces, glass, most plastics and ceramics.

Passes EN1276, EN13697 and EN1650.

BB008-75 750ml  
BB008-5 5 litre

## Jangro Kitchen Cleaner Sanitiser

Unperfumed liquid disinfectant. Removes general soiling and kills a range of bacteria including MRSA. Unperfumed formulation makes it ideal for use in kitchens. Passes EN1276 in 30 seconds.

BB004 750ml  
BB004-5 5 litre

## Jangro Cleaner Disinfectant

Disinfects, cleans and deodorises in one application. Will help prevent the spread of infection. Suitable on all washable surfaces. Ideal in schools, nursing homes, surgeries and wherever there is risk of infection. Kills MRSA and Shigella (the most common cause of dysentery).

Passes EN 1276.

BA048-75 750ml  
BA048-5 5 litre

## Jangro Chlorine Tablets

Tablets give a measured dose of available chlorine, which can be used for the disinfection of equipment, work surfaces, hospital, medical, hotel, catering etc. Effective against fungi, spores and viruses (including HIV and Norovirus). Passes EN13704, EN14476, EN1040, EN13697, EN1276 and EN1650.

BC013 200 tablets

# Surface Cleaning

## Jangro Enviro

Jangro's concentrate cleaning products deliver chemicals easily and economically. The products have been formulated with a sensible approach and consideration to environmental issues.

Unperfumed concentrated solutions for multi-purpose for cleaning and disinfecting hard washable surfaces or equipment.

**Enviro H6 General All Purpose Sanitiser**  
BB457-1 1 litre

**Enviro K4 Kitchen Sanitiser**  
BB472-1 1 litre

**Enviro W1 Washroom Bactericidal Cleaner**  
BB451-1 1 litre

### Enviro Cleaner Disinfectant Sachets

A QAC based cleaner disinfectant which contains deodoriser and perfume designed for cleaning and sanitising in hospitals, nursing homes and hotels where sanitation and the deodorising smells is important.

BB550 1x100 sachets Dilute 1:25

## Sanitising Wipes

BB198-500

**Jangro Professional Surface Sanitising Wipes**  
Disposable sanitising wipes that have been tested to BS EN 1276 making them effective against a wide range of bacteria including E-Coli, Salmonella, Listeria and P.Aeurginosa.

BB198-500 Tub of 500 sheets

**PDI Universal Sanitising Wipes Alcohol Free Soft Pack**  
Alcohol free, disposable disinfection wipes for non-porous hard surfaces and non-invasive medical devices. PMHB free. Multi-purpose, cleans and disinfects in one. Certified as a Class IIA medical device. Tested to EN 1665, EN 14476, EN 16615, EN 13727, EN 13624 & EN 14348.

EA550 200 soft pack  
EA551 Tub of 200 sheets  
EA552 Bucket of 225 sheets

# Disposable Wiping

## Disposable Paper Wipes

Wiping is part of the everyday cleaning of all facilities. Jangro provides a range of disposable paper and non-woven wipes, colour-coded to prevent cross contamination.

### Jangro Centrefeed Dispensers

Key lockable units available in plastic or stainless steel.

AH126 Stainless Steel

### Hand Towel Dispensers

Key lockable units available in plastic or stainless steel.

AH110 Stainless Steel  
AH106 Plastic

### Paper Hand Towels

Hand towels are available in variants of c-fold, s-fold or z-fold. Colours in white, blue or green.

### Premium Biowipe Plus

Heavy duty anti-bacterial cleaning cloth which has exceptional strength both wet and dry and has large holes which gives more wiping edges to remove stubborn marks which increases its wiping performance.

CG017 25 per pack

### All Purpose Cloth

Non woven cloth with open cellular structure makes them very effective at collecting dirt particles, as well as removing stubborn stains.

CG005 50 per pack

# High Level Cleaning

## Stingray Indoor Cleaning Kit 450 Pro

Cleans indoor windows 25% faster and uses up to 39% less chemicals than traditional methods. Global innovation award winner which changed how best to get the job done. Push Button Simplicity - Effortlessly apply glass cleaner at the push of a button at any height. Get professional results straight out the box. Working height 5m (16ft) reach.

CD602

## High Level Cleaning Tool

This 72cm tool will bend to clean those hard to reach areas. The microfibre sleeve picks up all the dirt, dust, and liquid with ease.

Sleeve can be laundered for re-use. For extra length, attach the simple push fit 162cm handle to extend to an overall reach of 234cm.

- HE115 Handle
- HE116 High Level Tool
- HE117 Microfibre Sleeve

Extends to 234cm

## Duop Reach Cleaning Kit

A versatile and extendable cleaning tool which features an ergonomic ball and socket joint making cleaning strain-free for users.

Kit includes extendable handle, removable socket and ball frame, two cleaning and glass microfibre pads, spray bottle and five Hi-shine cloths.

- HE160 Reach Kit
- HE161 Glass Pads x10
- HE162 Cleaning Pads x10
- HE163 Ball Frame
- HE164 Reach Handle

# Efficient Floor Cleaning

## Rubbermaid Pulse Mopping Kit

- Removes 99.7% or more of tested viruses & bacteria
- Prevents the spread of germs
- Bucket-less mopping system

Over **90% of airborne microorganisms** in buildings are due to resuspension from floors and other surfaces\* making floor cleaning important not only to remove dust, dirt, and debris, but to disinfect the surface where germs are commonly spread throughout a facility.

In a world where disinfecting to prevent the spread of germs is extremely important, it is also important to disinfect in a **efficient and productive manner, without sacrificing efficacy.**

Our Rubbermaid Pulse Mopping Kit provides facilities with an ergonomic, bucket-less mopping system to help cover more square feet in less time than traditional systems, while also **removing 99.7% or more of tested viruses and bacteria.**

- HA210 Pulse Set
- HA211 High Absorbency Mop
- HA212 Microfibre Wet Mop
- HA213 Scrubber Mop
- HA214 Caddy
- HA220 Backpack

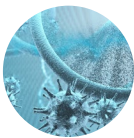

Cleans up to 930m<sup>2</sup>

\*Based on third-party testing on VCT surface with water only | EPA Est. No 92100-CHN-1  
Tested virus: Feline Calicivirus | Tested Bacteria: Clostridioides difficile (C. diff), Methicillin-resistant Staphylococcus aureus (MRSA), Pseudomonas aeruginosa. Not tested on COVID-19

# Hygienic Floor Matting

Prevent the spread of  
walked in bacteria, viruses  
and infectious microorganisms

Elimination  
of bacteria

Cleanliness on a  
microbial level

## Entra-Clean Hygiene Plus

**The washable doormat that actively kills germs.**

- Removes visible dirt and kills invisible microbes.
- HygienePlus means the mat is treated with the EU-registered biocide, BI-OME registered with OEKO-TEX® an antimicrobial and virus reducing technology BI-OME works by effectively killing bacteria when contact is made with the mat.
- Improve floor level hygiene around your business - important whilst fighting Covid-19 and beyond.
- More sustainable
- Fully machine washable
- Free of metals
- Reduces odours caused by bacteria and fungi

## FACT: 80% OF SOIL ENTERS THE BUILDING VIA PEOPLES FEET!

Harmful bacteria, germs and viruses are present in all buildings. Dealing with them effectively will significantly reduce the risk of spreading infection.

Floor Care & Carpet Care Courses are available on [www.jangrolms.net](http://www.jangrolms.net)

### Vacuuming

Jangro has a vast range of carpet care machines to suit your requirements, from tub models to uprights. For areas where a deeper clean of the carpet is required, upright vacuum cleaners are recommended. All machines are provided with a range of tools and accessories that increase their adaptability for tackling hard-to-reach areas or typical above-the-floor items such as furniture. For advice on the correct model for your site, contact your nearest Jangro distributor.

**MODEL SHOWN**  
FA361 Sebo 350 Evolution Upright Vacuum

### Carpet Extractors

Spray extraction carpet and upholstery cleaning machines, designed to provide a greater deep clean of carpets.

**MODEL SHOWN**

## Scrubbing Machines

FB561

FB626

FE243

A selection of scrubbing machines are available from small multi-purpose scrubbers to the largest which you sit on and drive. Regardless of the size, they all perform the same function of dislodging dirt and debris. Scrubber dryers combine the scrubbing function of a rotary cleaner with the suction capabilities of a vacuum allowing both cleaning processes to be carried out in a single pass.

### MODELS SHOWN

FB561 iVo Powerbrush XL  
FB626 Truvox Multiwash 340  
FE243 Karcher B40 Scrubber Dryer

## Rotary Cleaners

Rotary cleaners are the most common machines used by cleaning operatives throughout the industry. We have a large range of high performance rotary cleaners which are perfect for scrubbing, burnishing, spray cleaning and buffing.

### MODEL SHOWN

FB530 Numatic Loline Rotary

## Steam Cleaners

Our professional steam cleaning machines have some outstanding attributes and can kill bacteria and germs, which is why they are so highly regarded by professionals in the NHS and in the food industry. Steam cleaners are designed for heavily soiled areas requiring a cleaning utilising steam only.

### MODEL SHOWN

FF430 Matrix SV4 Steam Cleaner

# Cleaning a Potential Virus Outbreak

## STAGE 1 - CLEAN

### Using a cleaning detergent

- 1 Wash hands with antibacterial soap and water then sanitise with alcohol gel.

- 2 Put on disposable PPE and place safety signs. Some infections can become air-borne - please wear a mask!

- 3 Virucidal Cleaner can be used for the initial cleaning step. Alternatively use a NEUTRAL detergent.

- 4 Dilute 60ml to 500ml of water in a trigger spray bottle.

- 5 Spray on to cloth and wipe surface to be cleaned.

- 6 Leave for 30 seconds. Wipe surface with a clean cloth.

## STAGE 2 - DISINFECT

### Use a product tested to EN14476

- 1 Wash hands with antibacterial soap and water then sanitise with alcohol gel.

- 2 Put on disposable PPE and place safety signs. Some infections can become air-borne - Please wear a mask!

- 3 Spray surface, leave for 1 minute contact time. If using an alternative product check the label for recommended contact time, then wipe clean.

- 4 Place all waste in waste bag. Seal bag and place in appropriate area for disposal.

- 5 Wash hands with antibac soap and then dry with disposable towel.

- 6 When dry, alcohol sanitiser can be applied.

Stage 1, can be carried out using a cleaning detergent, followed by a disinfectant.  
Stage 2, the example above uses Virucidal Cleaner, which can be used for both stages.

# How to use Antiviral Disinfectant In Fogging Machines

Jangro Antiviral Disinfectant 5 litre BA063-5 is ready to use, there is no need to dilute. It is suitable for use in most fogging machines.

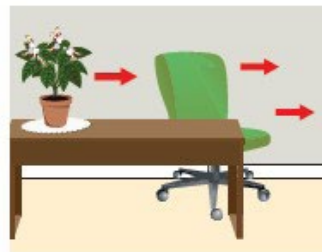

Always follow equipment manufacturers instructions. Fogging is not designed to replace cleaning of surfaces, and it is advised to clean all surfaces prior to fogging.

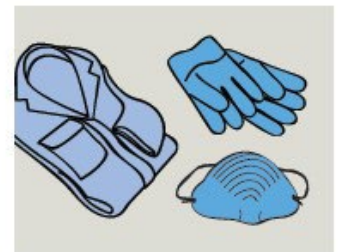

**1** Wash hands with antibacterial soap and water then sanitise with alcohol gel.

**2** Place safety signs.

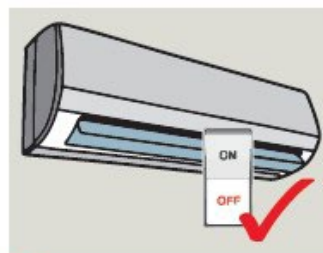

**3** Remove all soft furnishings or cover with a polythene sheet before fogging. Remove plants from area.

**4** Observe all PPE advice. Wear protective gloves, coveralls and a FFP3 Face mask.

**5** Ensure occupants are removed from the area before fogging.

**6** Turn OFF any ventilation or air conditioning systems. Switch off and cover any sensitive electrical equipment.

**7** Use neat at a ratio of approx. 1 litre per 100m<sup>3</sup> area.

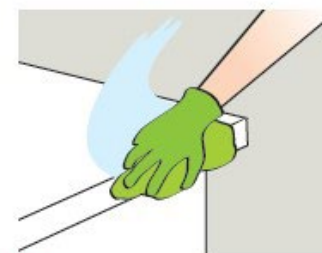

**8** Fog according to machine manufacturers instructions.

**9** After fogging, wash hands and any other contaminated areas of the body with soap and water.

**10** Allow surfaces to dry naturally before returning the area to use.

**11** For food contact surfaces, rinse and wipe dry before reuse.

**When using do not eat, drink or smoke. Do not ingest. This is not a medicine. Use biocides safely and sustainably.**
